

Interested in composting?

Composting is easy to set up and maintain and the end product is a nutrient rich soil conditioner so it is good for your garden too!

Compost is a valuable resource. It is nutrient rich and can be used to feed your garden, potted plants etc. By using peat-free compost in your garden you are also helping to protect Ireland's remaining peatlands.

Fingal County Council provide subsidised Home Compost Bins. You can purchase (paying with bin tags only) your compost bin at your local recycling centre and take it away with you.

STANDARD BIN: €32

ROTATING BIN: €64

KITCHEN CADDIES: €8

For further information on home composting call **01 890 6286**.

Bulky household waste collection

White goods, furniture or other bulky items can now be taken away from your doorstep by the Council.

Contact us at **01 890 6799** with the details of the items you want removed (max. 5 items) & your address and we will arrange for a collection from outside your house.

There is a charge for the collection, the price is set per item. Please contact us for the price list. All charges are to be paid with bin tags only.
