Council congratulates Fingal Tidy Towns Committees

Fingal County Council has congratulated the county’s Tidy Towns committees on their successful showing in this year’s Super Valu Tidy Towns awards ceremony in DCU’s Helix on Monday September 25.

Last year’s National Winners Skerries won the county title and finished second in their national category of Ireland’s tidiest large town as they came in one point behind Westport, County Mayo.

Swords won two prizes with a silver medal in their National Category and the Diversity Award. Malahide also did well and came fourth in the county awards behind Skerries, Dalkey and Cabinteely.

Congratulating all of the Tidy Towns Committees on their success at this year’s awards ceremony, Fingal County Council’s Chief Executive Paul Reid said: “Fingal County Council is extremely proud of the consistent efforts made to keep Fingal clean and tidy all year around. We encourage the inclusion of people from all backgrounds in community groups such as the Tidy Towns Committees so we were delighted that Swords won the Diversity award which recognises the inter-culturalism within the committee. This reflects the value placed on diversity across all of Fingal.”

Mayor of Fingal Cllr Mary McCamley praised the committees for their achievements: “I am delighted that the efforts of all involved have been recognised. Tidy Towns Committees play a huge role in maintaining and caring for many public spaces. It’s great to see last year’s National Winners Skerries’ hard work recognised again.”

She added: “The awards are a reflection of the hard work and commitment put in by the members to make all of Fingal a beautiful place to live.”

Fingal County Council’s Director of Operations David Storey also offered the committees across Fingal his congratulations: “I am delighted that all the hard work by the committees across Fingal has been recognised nationally through the National Tidy Town Awards. The operations
department look forward to working with these groups who give their time on a voluntary basis to further enhance and improve the communities.”
