

19th November

Ms. Ethna Felten
Aircraft Noise Competent Authority
County Hall
Swords
Co. Dublin

**Re: Aircraft Noise (Dublin Airport) Regulation Act 2019 Section 19 Compliance Report
– Clarification of Further Information**

Dear Ethna,

Further to your correspondence of 16th November and the points detailed therein, let me first assure you that Dublin Airport is treating this matter as an urgent priority. We are in the process of dealing with the points raised and will provide ANCA with the necessary information to make a decision on Dublin Airport's responsibilities arising from Section 19 of the Aircraft Noise Regulation Act 2019.

Senior management at Dublin Airport is committed to ensuring that the necessary resources required to discharge our responsibilities are in place and to this end we will liaise directly and in a timely manner with ANCA going forward.

Specifically, we note and accept that ANCA requires further compliance data for all noise mitigation measures currently in place or planned for the airport additional to that provided to date. Similarly, further detail surrounding the measures undertaken or planned, to encourage, promote, and incentivize users of the airport to comply with noise mitigation measures is necessary.

This is a complex issue requiring multiple stakeholder engagement and agreement processes that we have been progressing internally. At this point, we acknowledge that we have not discussed the steps taken to date with ANCA.

Dublin Airport will respond in more detail to the points raised within the next 4 weeks. Our response will set out a detailed programme for the provision of compliance data required, as well as plans relating to the phased implementation of our

Environmental Charging Proposals and other related matters. We will further suggest regular meetings throughout 2021 or as required to ensure clear lines of communication and transparency in closing out the noise programme of works and agreeing planned implementation dates.

Yours sincerely

Ian Clarke
Interim Head of Energy, Environment & Utilities

C/c Mr. Ultan McCloskey
Director of Infrastructure

Mr. Peter Chambers
Group Head of Asset Management

Mr. Joe Mahon
